FOR IMMEDIATE RELEASE

August 13, 2012

NEW HAMPSHIRE BANKING DEPARTMENT ORDER AND PUBLIC RELEASE OF DOCUMENTS

During a routine review of Banking Department materials stored at the State Archive, the Department identified certain documents related to Financial Resource Mortgage, Inc. (FRM). Commissioner Wilbur directed a thorough review of Banking Department files stored at the Archive to determine whether there were any additional previously unidentified FRM documents. Upon completion of this review, the Banking Department identified the following documents: a so-called "examiner's work file" related to the 2001 Department examination of FRM; examination reports of the company completed from 1990 to 1999; several FRM annual reports; license applications and license renewals; and one complaint file, which had been resolved. All of these documents, and the Commissioner's order to release the documents, have been placed upon the NHBD's website. As with prior FRM document releases, they have been redacted to protect the confidentiality of certain personal information.
