

SUPPLEMENTAL SPECIFICATION**AMENDMENT TO SECTION 417 -- COLD PLANING OF BITUMINOUS SURFACES**

(Amends Final Pay of Items 417. & 417.19 to Non-Final Pay and
Adds Removal of Existing Rumble Strips)

Add to Description:

1.2 This work shall also consist of removing existing rumble strips.

Add to Construction Requirements:

3.4 Rumble Strips. Existing centerline and shoulder rumble strips scheduled for overlay shall be treated to eliminate their effects on the new pavement surface.

3.4.1 Rumbles shall be removed prior to direct placement of the overlay by milling the full depth and width of the rumble strip.

3.4.2 In cases where the eliminated rumble strip will not be immediately overlaid, as for long-term temporary lane changes for routing detour traffic, the rumbles will be milled to a depth of one inch. The milled area shall be inlayed to match the existing pavement surface with hot bituminous pavement (hand method).

Amend 4.1 to read:

4.1 Cold planing of bituminous surfaces, as shown on the plans or as ordered, will be measured by the square yard (square meter) as determined by the actual surface measurements of the lengths and widths of the bituminous areas removed.

Add to Method of Measurement:

4.2 Cold-planing existing rumble strips will not be measured, but shall be by the linear foot (linear meter) pay quantity in accordance with 109.11 for lengths shown on the plans.

4.2.1 The nominal depth of material removed will be as shown on the plans.

4.3 Cold-planing existing rumble strips, 1" depth, will be measured by the linear foot (linear meter) to the nearest one tenth of a foot (meter) of roadway as specified by the item. Each rumble strip will be measured longitudinally along the traveled way.

Amend 5.1 to read:

5.1 The accepted quantities of cold planing of bituminous surfaces to the nominal depth specified will be paid for at the contract unit price per square yard (square meter).

Add to Basis of Payment:

5.2 Cold-planing existing rumble strips is a final pay quantity item and will be paid for at the contract unit price per linear foot (linear meter) in accordance with 109.11.

5.3 The accepted quantity of cold-planing existing rumble strips, 1” depth, will be paid for at the contract unit price per linear foot (linear meter) as specified by the item.

5.3.1 Inlayed pavement shall be paid under Item 403.12, Hot Bituminous Pavement, Hand Method.

Amend pay items and units to read:

417.	Cold Planing Bituminous Surfaces	Square Yard (Square Meter)
417.19	Cold Planing Bituminous Surfaces (Night)	Square Yard (Square Meter)

Add to Pay Item and Unit:

417.51	Cold Planing Existing Rumble Strips (F)	Linear Foot (Linear Meter)
417.52	Cold Planing Existing Rumble Strips, 1” depth	Linear Foot (Linear Meter)
