MEDIAN BARRIER WORK TO BEGIN IN DOVER, HOOKSETT AND BOW
NIGHT WORK FOR THREE WEEKS BETWEEN DOVER TOLLS AND LITTLE BAY BRIDGES

The New Hampshire Department of Transportation announces night work is scheduled to begin Friday, August 24 on the replacement of deteriorated median concrete barrier on the Spaulding Turnpike (NH Route 16) in Dover between the Dover Tolls and the Little Bay Bridges.

This work will take place nightly between 8:00 PM and 5:00 AM for approximately three weeks. Lane closures will be necessary in order to complete the work.

This project also involves the installation of 2.2 miles of median concrete barrier on the F.E. Everett Turnpike (Interstate 93) in Hooksett and Bow. Work will start September 17 and will require lane closures and a reduction in the speed limit to 55 MPH during daytime work hours.

CPM Constructors of Freeport, Maine is the contractor for the \$2.4 million project.
