FINAL PAVING PLANNED AT NEW KEENE ROUNDABOUT ON NH 10/12/101
TRAFFIC DELAYS SHOULD BE EXPECTED FROM SEPTEMBER 9 THROUGH 12

The New Hampshire Department of Transportation announces final paving work is scheduled to begin Sunday, September 9 on the new roundabout at the intersection of NH Routes 10/12/101 and Winchester Street in Keene.

These paving operations are planned to get underway at 7:00 PM on September 9 with overnight operations focusing on the roundabout itself, the adjoining slip ramps and the Winchester Street portion of the project. Traffic will be maintained on the slip ramps while the roundabout is being paved.

Daytime operations on Monday, September 10 through Wednesday, September 12 will be on the approaches to the roundabout on the Route 10/12/101 portion of the project.

Motorists should expect delays during these paving operations and take alternative routes if possible. In the event of rain, work will be postponed until the following day.

Park Construction of Fitzwilliam, New Hampshire is the contractor for the \$6.3 million project, which is scheduled to be completed by the end of September 2007.
