CULVERT REPLACEMENT ON FOREST LAKE ROAD IN WHITEFIELD
WILL REQUIRE ROAD CLOSURE ON TUESDAY, OCTOBER 4

The New Hampshire Department of Transportation announces the planned replacement of a culvert on Forest Lake Road in Whitefield will occur on Tuesday, October 4, 2005.

This project is located on Forest Lake Road about 1,500 feet from the intersection with NH Route 116. The work will require the road to be closed for the day, shortly after the morning school bus run at approximately 6:30 am. The road will remain closed until late afternoon on October 4. Residents living along Forest Lake Road should plan to take alternative routes during that day.

NHDOT District One forces will be doing the work on this culvert replacement project.
