SAFETY IMPROVEMENTS BEGIN ON NH ROUTE 16 IN WAKEFIELD
INCLUDING LEFT TURN LANES AT PINE RIVER POND ROAD

The New Hampshire Department of Transportation announces work is getting underway this week on safety improvements to a section of NH Route 16 in Wakefield.

This project involves constructing left turn lanes at the intersection of Pine River Pond Road and shoulder improvements at the intersection of Crew Road.

Initial work this fall will involve tree clearing to improve sight distance from approximately 1,000 feet south of Crew Road northerly to approximately 1,000 feet north of Pine River Pond Road. Additional work will include slope construction and some road base work before winter. Final pavement, guardrail and signing work will be completed during the spring of 2007.
