PUBLIC MEETINGS SCHEDULED FOR I-93 TRANSIT STUDY
DISCUSSING OPTIONS FOR BOSTON TO MANCHESTER CORRIDOR

The New Hampshire Department of Transportation (NHDOT) and Massachusetts Executive Office of Transportation (MA EOT) will hold two public meetings to explain the purpose and progress of the I-93 Transit Investment Study.

The two year study is currently examining potential transit service improvements on the I-93 Corridor between Boston, Massachusetts and Manchester, New Hampshire. It will study and make recommendations on a range of alternatives, including rail, bus, and ride-sharing. The study team will also work with local and regional entities to identify policies and programs that may encourage transit friendly land use and development.

The scheduled meetings will be held on the following dates:

- Tuesday, April 10, 2007 from 6:00 PM – 8:00 PM at the Searles Building (Methuen City Hall), 41 Pleasant Street, Methuen, Massachusetts, and
- Wednesday, April 11, 2007 from 6:00 PM – 8:00 PM at Derry Municipal Center, 14 Manning Street, Derry, New Hampshire

Proposed transit alternatives will be presented and discussed at both of the public meetings. Study information can also be viewed and comments can be submitted on the project website at www.i93transit.org.

For further information on the I-93 Transit Investment Study, visit the web site or contact Ram Maddali, Bureau of Planning and Community Assistance, New Hampshire Department of Transportation, email: rmaddali@dot.state.nh.us.
