**NIGHT CONSTRUCTION WORK ON US 4 IN CHICHESTER  
NEAR INTERSECTION OF MAIN STREET AND HORSE CORNER RD.**

The New Hampshire Department of Transportation announces night construction work is scheduled for Tuesday, June 25 through Thursday, June 27, 2007 on US Route 4 near the intersection of Main Street and Horse Corner Road in Chichester.

This work will involve installing drainage pipe across Route 4 and will require one-way alternating traffic between the hours of 8:00 PM and 6:00 AM. Uniformed officers, cones and barrels will be used to guide motorists through the work zone.

This project involves widening and paving US Route 4 to provide one additional "through lane" in each direction through the intersection, along with traffic signal upgrades and drainage improvements. On Route 4, the work begins approximately 2,000 feet west of the intersection with Main St. and Horse Corner Rd. and proceeds east through the intersection to a point approximately 1,425 feet east of the intersection. Sidewalks will also be provided on both the north and south side of Route 4, and extended an additional 1,350 feet on the north side to the Hillcrest Campground.

Weaver Brothers Construction Co. of Bow, New Hampshire is the contractor for the \$2 million project, which has a final completion date of November 16, 2007.
