**REHABILITATION OF US ROUTE 302 BRIDGE IN LISBON TO BEGIN  
DECK REPLACEMENT FOR BRIDGE OVER AMMONOOSUC RIVER**

The New Hampshire Department of Transportation announces work is scheduled to begin the week of October 13, 2008 on the rehabilitation of the US Route 302 bridge over the Ammonoosuc River in Lisbon.

This project involves the replacement of the bridge deck and associated guardrail work, and will require temporary lane closures for approximately one month this fall. Flaggers will assist motorists through the work zone. Temporary traffic signals will be put in place at the project location after April 1, 2009.

Beck & Bellucci, Inc. of Franklin, New Hampshire is the contractor for the \$1.5 million project, which has a final completion date of October 30, 2009.
