**NIGHT UTILITY WORK ON SPAULDING TURNPIKE IN ROCHESTER**  
***TRAFFIC IMPACTS ON THE NIGHT OF NOVEMBER 5***

As part of the utility relocation required for the Spaulding Turnpike Expansion Project, Public Service Company of New Hampshire plans to work the evening of November 5, 2008 installing new electricity wires across the Spaulding Turnpike just north of Exit 12 in Rochester. Work hours will be from 8:00 pm until 2:00 am with some traffic stoppages within that time period.

During this nighttime work, State Troopers will slow both northbound and southbound traffic to a stop while the cables are pulled across the roadway. Message boards and signs will alert motorists to the night work zone. Police Officers will assist with directing traffic through the work areas.

In the event of adverse weather, this work will be rescheduled to the following night, November 6.
