STARK RAILROAD CROSSING REPAIRS

Crossing located between the junctions of Croteau Road and Town Garage Road on NH Route 110 in the Town of Stark.

The New Hampshire Department of Transportation and the St. Lawrence and Atlantic Railroad announce repairs are scheduled to begin Monday, July 13, 2009 at the railroad crossing on NH-110 in Stark.

This repair work will require alternating one-way traffic on July 13th and 14th. NH Route 110 will be detoured via Croteau Road and Town Garage Road during daylight hours on July 15th thru the 17th. Due to the nature of the detour, the NHDOT suggests that tractor-trailer units seek alternate routes on the 15th thru 17th.

Flaggers, variable message signs, barriers and cones will be used to assist motorist through the detour.
