

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

CHRISTOPHER D. CLEMENT, SR.
COMMISSIONER

JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER

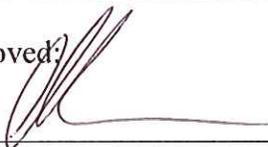

New Hampshire Department of Transportation
Bureau of Highway Maintenance

Commitment Statement

The Bureau of Highway Maintenance affirms its intent to meet the ideals and commitments of the New Hampshire Department of Transportation's Environmental Policy (Policy 501.01, Dated November 17, 2009).

Our work takes place at the Bureau Patrol Sheds and on the state highway system that we are responsible to maintain. We strive to maximize the benefits of our maintenance activities and to perform our work in a safe, environmentally friendly, cost-effective, and efficient manner. In addition to our commitment to serve the people who live, work, and travel in New Hampshire, we have an obligation to preserve the environment. We interact daily with the natural and cultural resources that make New Hampshire a special place to live and work. Highway Maintenance employees and their families take pleasure in outdoor activities, and therefore have a vested interest in making positive differences in the environment as they perform their daily work. The dedication every Highway Maintenance employee has in his or her work is the most important asset we have to meet our goals.

We will utilize the Bureau of Highway Maintenance Environmental Management System to continuously evaluate our operations and decrease our environmental impacts. Every employee can contribute to this process. In addition to federal, state, and local environmental agencies, we will work within the Department to find ways of minimizing our collective footprint on this land. Our flexibility, dedication, and ability to adapt to changing situations will be a tremendous asset in this endeavor.
