REGISTRATION: Free and Required on [the Eventbrite page](#)

FOR MORE INFORMATION: BPTAC's NHDOT staff liaison Erik Paddleford at erik.paddleford@dot.nh.gov

The new FHWA-endorsed guide for *Small Town and Rural Multimodal Networks* is a facility design guide focused on design solutions for suburban areas, small towns, and rural areas—places that, until recently have not been showcased in photographs of best practices around the country.

Based on FHWA and AASHTO guidance, this guide fulfills the need and desire to make travel safer and more active in suburban areas, small towns, and rural communities, with visualizations and flexible design guidance for contemporary walking and bicycling facilities.

WORKSHOP IS SPONSORED BY THE NEW HAMPSHIRE DEPARTMENT OF TRANSPORTATION AND THE BIKE-WALK ALLIANCE OF NEW HAMPSHIRE
