All individual health major medical submissions to NH must be made via SERFF through the Form/Rate Filing and Plan Management modules. Plan Binders must be complete submissions, as no partial or incomplete submissions will be accepted. Corresponding forms filings must be referenced in the Associate Schedule Items. Please see [SERFF Plan Management Instruction Manual](#) for further instructions on binder submission.

CMS has published detailed instructions for the completion and validation of templates. It is the issuer's responsibility to accurately and thoroughly complete the templates. For 2017, the NHID will require an attestation from issuers that all CMS QHP tools have been run and errors resolved prior to submission of data templates. NHID will require the state generated [attestation form](#) at the time of filing, and submissions will not be reviewed until such time as attestations are received noting satisfactory results. If issuers receive an "unmet" when running a tool but believe they are still compliant, they must submit the excel tool's results tab and add an "explanations" column for their justification. Both the attestation form and excel spreadsheet must be uploaded to the Supporting Documents tab in the binder.
