March 3, 2010

Dear xxxx,

Several years ago we made several revisions to the supplemental reporting requirements, and those changes have allowed us to provide information on the health insurance marketplace to a broad audience. This year there are minor changes to the reporting requirements and they are described in the updated bulletin.

Although many carriers and TPAs provide complete and compliant submissions by the due date, some organizations have been required to resubmit applications and been subject to enforcement actions. The due date for the report has been pushed back and is now July 15. Carriers and TPAs will need to submit complete and compliant reports by this date to avoid enforcement activity. I strongly encourage you to obtain answers to any questions you have about the submission well before this date, and implement an effective quality assurance process so that you do not send a non-compliant submission. Data submissions are accepted before the deadline, and it is advisable to submit the reports ahead of time.

Additionally, the data inclusion requirements for the supplemental report submissions are virtually the same as for the Uniform Reporting System for Health Care Claims Data Sets (Ins 4000), and we expect that carriers and TPAs will implement a process so that the reporting is consistent.

If you have any questions about the report, or if the Department can be of further assistance, please do not hesitate to contact me or my staff.

Sincerely,

A handwritten signature in black ink, appearing to read "RAS", written over a white background.

Roger
