Subject: Insurance Co Merger
Date: Friday, December 04, 2015 2:07:11 PM

I oppose the merger of Cigna Healthcare of NH and Anthem. As I have read the information on your web site, the combined market share for the company could be 60%, This is extreme concentration of market control that will lead to (a) initially driving out competition by under pricing the products and (b) dictating the pricing of the insurance products when there is minimal competition. I don't see how a single state can prevent this merger so I assume a coalition of states would have to act.
