

Find a doctor or hospital

You will enjoy significant cost savings and easy access to care when you use network doctors and hospitals in your area.

Select your state

Select your state to identify the networks currently available in your area.

Please note that providers may move in and out of the network. Also, a hospital or clinic may use both in-network and out-of-network providers. To ensure your chosen provider is in network each time you seek care, verify the provider's participation by calling the network or visiting the network's website, listed on your medical ID card.

State Notices

Network Name	Website Address	Confirm Participating Providers
 Aetna Signature Administrators® PPO	Aetna Signature Administrators® PPO	See website
Note: If the front of your ID card has another logo to the right of the ASA logo this means that Aetna has teamed up with another network to offer you the most extensive network of doctors and hospitals available. ASA remains your only primary network and to maximize your benefits you should only use providers in the Aetna network found on the ASA website. Looking for doctors and hospitals anywhere else online may result in out-of-network benefits.		
 First Health for Assurant Health Access Plans	First Health for Assurant Health Access Plans	888-367-3102
 First Health for PPO Plans	First Health for PPO Plans	800-226-5116
 PHCS Network, a Product of MultiPlan, Inc.	PHCS Network, a Product of MultiPlan, Inc.	800-256-2680 Assurant PPO; 800-357-6847 for non-PPO plans
Note: Search for a Doctor or Facility section, under Select your network, for PPO members, select "PHCS Network", for STM, Student Select or other non-ppo, select "PHCS Healthy Directions".

Out-of-network discounts

In the event your providers are not in your primary network, you can still receive discounts for services by choosing a provider that participates in Assurant Health's secondary networks. It's important to know that covered claims will be processed at your out-of-network benefit level. However, you'll save money through providers that offer these discount services.

Look on the back of your ID card for the logo in the lower right corner and click the corresponding logo below for a list of secondary network providers you may choose from:

The network websites to which you will be linked are solely responsible for the content and accuracy of their websites. Be sure to verify your doctor is still in the network as the websites are not necessarily updated daily.

While we make every effort to maintain accurate and up-to-date information, we recognize that provider information may occasionally change.

The listing of providers in this directory is not a guarantee of benefits for the services they provide as some facility-based physicians (such as anesthesiologists, pathologists, radiologists, emergency medicine physicians, and neonatologists) may not be contracted as in-network providers. Before your appointment, it is important that you confirm your provider's network status and confirm if any practice limitations are applicable.

Please note that because you and your provider make all treatment decisions, the quality and results of your care are the responsibility of the provider you select.
