* The companies included on this exhibit are selected based on premium volume for the most recently reported complete calendar year and are displayed in alphabetical order by company name.

* These are only ESTIMATES of the premium based on the risk descriptions provided on the accompanying page. Your premiums will vary based on your own characteristics.

* This exhibit shows only premium examples. In any purchase of insurance, you should evaluate coverage levels & offerings, service, agency vs direct writers and online options, and many other considerations.

* All premiums should be based on the assumption that there are no deficiencies for the risk; i.e. the credit score if used should not keep the risk from being in the best priced tier or company.
