SUPPLEMENTARY EXPERIENCE RECORD IN DETAIL

Affix your signature and date to this and each additional sheet. Add additional sheets as required. Use plain white pages and number consecutively. Type on one side only. Number each engineering engagement to correspond with the engagement key of your application.

In a chronological order, starting with your **first engineering engagement**, list and identify your engineering projects and/or assignments. Be specific in identifying the portion of the work you personally engineered. Note the calculations you performed, identify the project by job title, name of client, location of project, total cost and cost of the portion you engineered. In describing the projects when applicable list such things as capacities, sizes, ratings, list of equipment size and/or specified, or other suitable identifying means, note success or failure of each project.

In describing your experience avoid using such terms as: involved with, responsible for, participated in, taken part/assisted in, coordinated, coordination of, in charge of, concerned with, was assigned or other similar forms: do use designed, I calculated, I analyzed, I recommended, I evaluated, etc.

After you have prepared your first draft, read it critically. Does it show a reviewer, who is not familiar with you or your job the degree of Engineering expertise you applied and verify time-wise the Engineering experience claimed in your application.

Read instructions carefully. The Supplementary Experience Record is a most important part of your application.

Signature _____ **Date** _____
(ALSO SIGN AND DATE EACH ADDITIONAL SHEET)
