

Cellar Select

Beginning in July, each month we will feature a group of wines selected by our wine buyers which we feel are exciting new finds. Whether the wines are inexpensive everyday table wines, rare limited supply wines or anything in between, we feel all of these wines are definitely worth trying!

We will feature special wine racks which will display these wines in selected stores around the state. Look for the purple “Cellar Select” sign stocked with these very special wines. We will list, both the wines and the stores which will feature the display racks on our website. You can always use our handy “Product Finder” to find these wines in a location near you whether they have the display pieces or not.

We encourage you to try these very special wines and hope you’ll agree with our experts that they are truly worth having!
