Each one of us is at the center of our own mandala. Forming new connections within our communities cultivates the expansion of our personal mandala. The creation of a community mandala mural, to be donated to the Children's Hospital at the Elliot in Manchester, will allow patients, healthcare staff, caregivers and the public to reflect on a community effort that recognizes the arts as an integral part of healing, living, learning, making, growth and positive change. Special thanks to our conference artist in residence, Jessica Wyatt, for sharing mandala designs.
