So, you want to be a ...

Computer Software Engineer (Applications)

Information Technology

Projected to be among the occupations with the most openings
(New Hampshire Occupational Projections, 2006-2016)

Here are a few things
you should know.

Your gateway to New Hampshire workforce and career information

You'll want to know a few things about this career

Average Hourly Wage

\$41.21

Expected 10 year Growth

48%

Average Annual Openings

283

Training/Education Needed

Bachelor's Degree or Military Training
Continuing education needed to stay abreast of technological advances. See Computer Engineer Program available in NH at <http://nnetwork.nhes.state.nh.us/nnetwork/> (NNetwork)

Basic Skills

Reading, listening, writing, speaking, math, science

Job Skills

Problem-solving, analytical, communication, system analysis.
Also operational analysis, mathematics, science, programming, troubleshooting, active learning, critical thinking, technology design, and decision making

So, you want to be a ...

Computer Software Engineer (Applications)

Projected to be among the occupations with the most openings (New Hampshire Occupational Projections, 2006-2016)

Tasks

Source: O*Net Online

1. Confer with systems analysts, engineers, programmers and others to design system and to obtain information on project limitations and capabilities, performance requirements and interfaces.
2. Modify existing software to correct errors, allow it to adapt to new hardware, or to improve its performance.
3. Analyze user needs and software requirements to determine feasibility of design within time and cost constraints.
4. Consult with customers about software system design and maintenance.
5. Coordinates software system installation and monitor equipment functioning to ensure specifications are met.
6. Design, develop and modify software systems, using scientific analysis and mathematical models to predict and measure outcome and consequence of design
7. Develop and direct software system testing and validation procedures, programming, and documentation.
8. Analyze information to determine, recommend, and plan computer specifications and layouts, and peripheral equipment modifications.
9. Supervise the work of programmers, technologists and technicians and other engineering and scientific personnel.
10. Obtain and evaluate information on factors such as reporting formats required, costs, and security needs to determine hardware configuration.

Interests (Holland Code)

IRC

(Investigative, Realistic, Conventional)

Interest Area

Information Technology

Working Conditions

Generally comfortable well-lit office or computer lab

Average Work Week

40 hours

(could require nights and weekends to meet deadlines or solve unexpected technical problems)
