The State Veterans Council met briefly with the agency Director to discuss Legislation that would be proposed in the 2010 legislative session by Senator Jack Barnes. This legislation would be put forth to address a change in the agency name. All members decided that an agency name change would best be put forth as the NH Office of Veterans services. Additionally, there was a decision made to speak with NH Governor Lynch prior to introduction of this legislation to ensure his approval of this endeavor. Council Member Bernard and agency Director Morin agreed to make an appointment with Governor Lynch in December of 2010.
