## Twelfth Report of the Joint Agency Task Force on Employee Misclassification Enforcement

September 1, 2022

Executive Order #2010-3 dated September 3, 2010, and issued by Governor John H. Lynch, established the Joint Agency Task Force on Employee Misclassification Enforcement. The Task Force is comprised of state agencies with direct oversight or interest concerning the classification of individuals in New Hampshire's workforce.

The Task Force mission statement, consistent with the enabling Executive Order, states as follows:

The New Hampshire Joint Agency Task Force on Employee Misclassification Enforcement is committed to reducing the number of workers who are wrongly classified as independent contractors when their labor is truly employment.

Individuals and businesses who misclassify workers do so in violation of labor, employment, tax, insurance and occupational safety laws, by failing to pay required wages, carry workers' compensation insurance, comply with health, safety and licensing requirements, or pay income taxes and payroll taxes that fund unemployment insurance, disability insurance, and Medicare and Social Security benefits.

The Joint Task Force seeks ways to identify those situations where misclassification is occurring by sharing information each agency already has, and helping coordinate enforcement policies and procedures.

The Joint Task Force seeks to reduce the number of employers who fail to classify their workers properly and who fail to follow all legal steps to assure full legal protection for workers. The Joint Task Force will educate and encourage employers to learn how to treat workers appropriately. The Joint Task Force will recommend more effective mechanisms to sanction those employers who intentionally violate the law for their own unfair advantage over workers and business competitors.

**Actions Taken During the Year** 

NH Employment Security (NHES) kept track of its enforcement efforts concerning misclassified

workers specifically. For the calendar year 2021, it performed 110 field audits, resulting in

determinations that 114 workers had been misclassified. NHES ordered correction, including

\$1,615,435 in additional reported wages, and \$18,942 in additional taxes. The Department of Labor

(DOL) enhanced its outreach efforts conducting specific misclassification trainings for industries of

interest.

**Future Efforts** 

The Task Force continues to improve the interagency referral of issues. The group continues to

review enacted legislation/regulation in surrounding states in order to discern if there are best

practices which could be considered in the context of New Hampshire's regulatory activities.

The Task Force welcomes any ideas or suggestions for other approaches that could address the

serious problems associated with employee misclassification.

Respectfully submitted,

The Joint Agency Task Force on Employee Misclassification Enforcement
