

Ireland v. Town of Candia

Good morning:

As a respite from extremely complex opinions, the Supreme Court has offered us the following this morning:

The court affirmed a superior court decision dismissing a case against the Candia ZBA, in which the ZBA denied two variances. The plaintiff filed a motion for rehearing, which the ZBA ultimately decided was filed too late. The superior court agreed. The supreme court affirmed, basically saying that it really meant what it said in [Pelletier v. City of Manchester](#).
