NOTICE to all EMS Providers Renewing their NH EMS Provider License:

The NH Bureau of EMS has created a new electronic/online process for EMS Provider licensure renewal. All NH Providers renewing their EMS license (expiration date 3/31/13) will be mailed a letter in the next few days that will include a required "License Identification Number" or "LIN#".

This LIN# is **required** when using the online renewal option.

If you do not have your LIN# with you when you attempt to apply online, you will NOT be able to renew your NH EMS Provider License application using this method. In the event that you lose your letter, you will need to submit your application via USPS mail, as in the past.

The Bureau of EMS cannot assign a new LIN number nor can we issue you your existing number over the phone or via email. This LIN# will remain assigned to you as long as you remain in the NH EMS System.

BE ALERT and check your mail!

~ DO NOT IGNORE OR THROW THE "LIN" LETTER AWAY! ~
