## NH LICENSED EMS UNITS

The Bureau of Emergency Medical Services licenses 293 EMS squads, 365 EMS vehicles, and over 4700 pre-hospital care providers. The EMS Units resource list, consisting of transporting and non-transporting units, is to display potentially untapped EMS resources both locally and regionally for your plan. The attached EMS Unit Contacts is up to date at the time this guide was published. The most current EMS Unit contact information can be found at:

## MASS CASUALTY INCIDENT TRAILERS

The New Hampshire Department of Safety Commissioner's Office of Homeland Security Grants has made available Homeland Security Funding for five Mass Casualty Trailers statewide. The trailers were awarded through a competitive grant process. The trailers are mid sized tow behind trailers containing enough equipment and supplies to triage and initial treatment of 150 patients. The list of Mass Casualty Incident Trailers awardees and their contact information is provided to assist you with incorporating these resources into your plan. For additional information on the State Homeland Security Program go to:

## STATEWIDE FIRE MOBILIZATION PLAN

The Federation of Fire Mutual Aid Associations of NH is an organization comprised of representatives from all recognized mutual aid associations in NH. Mutual aid associations, districts or compacts are an excellent resource for EMS regional planning because most EMS Units are fire service based and many third party services belong to the mutual aid associations. (Table A1)

In 2004 the Federation of Fire Mutual Aids Association developed and implemented the Statewide Fire Mobilization Plan. The plan is based on agreements between all Mutual Aid Associations to make resources organized and available during man made or natural disasters. Specifically, the plan identifies strike teams and taskforces from each association/compact. A strike team is a group of five like resources under the command of a strike team leader. For example, an ambulance strike team is made up of five ambulances, two attendants pre ambulance, and a strike team leader. A task force is a group of resources chosen to complete a specific job. For example, a disaster task force includes engines, a ladder, an ambulance, a heavy rescue, and a task force leader. (Table A2) When a region of the state is severely impacted by a disaster and resources are diminished; resources from regions relatively unaffected by the disaster respond.

## TRANSPORTATION

The NH Department of Transportation Bureau of Rail and Transit maintains a contact list of public and private transportation providers in New England. These agencies may augment your Mass Casualty/Disaster Plans by means of mass transit of evacuees or the walking wounded. Additionally, this list may serve as a resource when addressing critical infrastructure protection, planning, and mitigation aspects of the plan.

The listing was current when this guide was published and up-to-date information may be found at:

## SCHOOLS

The New Hampshire Department of Education, Division of Program Support, Bureau of Education Support provides a listing of all public schools for various uses within the educational community. This listing is included to identify facilities for evacuation and alternative treatment areas within a community. Secondly, due to the high risk of educational occupancies during disasters this list could be used for hazard vulnerability assessments and mitigation activities.

The listing was current when this guide was published. For the most up-to-date school facilities information go to:

[www.ed.state.nh.us/education/programs/index.htm](http://www.ed.state.nh.us/education/programs/index.htm)

## PUBLIC WORKS

The University of New Hampshire Technology Transfer Center developed a Public Works Mutual Aid Program in 2003. The program was a collaborative effort between public works leaders and UNH. Currently, the Mutual Aid Program includes 76 participating communities, 579 trucks, and 330 workers. The program involves using written agreements between communities and providing reciprocal aid during a disaster. While these resources may be significantly impacted during a natural disaster they may be under utilized during a terrorist event or public health emergency.

For additional information on the Public Works Mutual Aid Program go to:

**NOTE:** It is imperative that **before** any facility is included in your plan, an agreement between parties must be established. A sample mutual aid agreement and memorandum of understanding is provided on page A-11.
