Instructions for Form RT-105

International Fuel Tax Agreement (IFTA) Quarterly Fuel Use Tax Schedule

A tax return must be filed for every quarter in which a valid license is held by the licensee.

Tax returns must be postmarked no later than the last day of the month following the end of the quarter. Failure to file timely reports will result in penalty and interest charges and the possible suspension of the IFTA license.

Report and payment must be submitted together. Make checks payable to:

State of NH, Road Toll

The tax return forms sent from the Road Toll bureau each quarter must be used for that quarter only as some jurisdictions change rates each quarter.

For information on additional fuel types, tax rate for individual jurisdictions, and tax conversion rates with footnotes, please log on to the Road Toll website at www.nh.gov/safety/divisions/administration/roadtoll/. Click on Fuel Tax Reporting Forms, under IFTA.

(A) Total Miles

Enter the total miles traveled in all jurisdictions by all **qualified motor vehicles** in your fleet. Report all miles traveled whether taxable or non-taxable (Total of column D).

Round mileage to the nearest whole mile
(e.g. 1234.5 = 1235)

(B) Total Gallons

For each **qualified vehicle**, Total Gallons equals fuel purchased at retail, plus fuel disbursed from bulk storage.

Round gallons to the nearest whole gallon
(e.g. 123.4 = 123)

(C) Average Fleet MPG

Divide summary figure (A) by (B).

Round to 2 decimal places
(e.g., 4.567 = 4.57)

(D) Total Miles

Enter the total miles traveled in each jurisdiction by all **qualified motor vehicles** in your fleet. Report all miles traveled whether the miles are taxable or non-taxable.

Round mileage to the nearest whole mile
(e.g. 1234.5 = 1235)

(E) Taxable Miles

Enter the IFTA taxable miles for each jurisdiction. Do not include fuel use trip permit miles or any "off-road" miles which are exempted by any jurisdiction.

(F) Taxable Gallons

Divide the taxable miles in column (E) by the Average Fleet MPG factor in (C) to determine the taxable gallons of fuel consumed in each jurisdiction. For jurisdictions that have a surcharge, enter the taxable gallons from the same jurisdiction's calculation in column (F).

(G) Tax Paid Gallons

Enter the total tax-paid gallons of fuel purchased, at retail, in each jurisdiction. Keep your records for each purchase claimed. **When using bulk storage, report only tax-paid gallons removed for use in your qualified motor vehicles.** Fuel remaining in storage cannot be claimed until it is used.

Round gallons to the nearest whole gallon
(e.g. 123.4 = 123)

Fuel purchased **and used in NH** for purposes other than propelling vehicles over the ways may be refundable. Call the Road Toll bureau at (603) 271-2311 for further details.

(H) Net Taxable Gallons

Subtract the amounts in column (G) from column (F) and enter the gallon amount in this column. If tax-paid column (G) is *greater* than taxable gallons column (F), place brackets around that number to show a credit due from that jurisdiction.

(J) Tax/Credit Due

Multiply amount in column (H) by tax rate, column (I) for each jurisdiction. Enter any credit amount in brackets. Any surcharge in column (F) is also multiplied by surcharge tax rate in column (I).

NH requires a licensee to report in U.S. measurement.

U.S. / Metric Measurements Conversion

One Liter	=	0.2642 Gallons
One Gallon	=	3.785 Liters
One Mile	=	1.6093 Kilometers
One Kilometer	=	0.62137 Miles
