

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
154156	15 Lead ECG	Inactive	Off / Turn On	Active	Added	Cardiac: 15 Lead ECG Obtained	These are now being done and this will allow us to capture as a procedure. Will not be able to capture as ECG Vital until July.
154061	Activation-Advanced Hazmat Specialty Service/Response Team	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change-Not available in V3
154062	Activation-Fire Rehabilitation Specialty Service/Response Team	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change-Not available in V3
154063	Activation-Other Specialty Service/Response Team	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change-Not available in V3
154064	Activation-Rescue Specialty Service/Response Team	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change-Not available in V3
154065	Activation-Social Services Notification/Referral	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change-Not available in V3
154066	Activation-Tactical or SWAT Specialty Service/Response Team	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change-Not available in V3
6730	AED-ERU	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change-Not available in V3
6330	Airway - ALS - Insertion: Surgical Cricothyrotomy	Inactive	Off / Turn On in XSD Only	Allowed in XSD	Added	Respiratory: Cricothyrotomy (Surgical)	Not on visible list, Usable by CCT/AMT via XSD
6225	Airway - Cleared: Foreign Body Removal	Active	On / Keep On	Active	No Change	Respiratory: Foreign Body Removal	Name change only
6160	Airway - Cleared: Opened, or Heimlich	Active	On / Keep On	Active	No Change	Respiratory: Heimlich Maneuver	Change words "Opened or Heimlich" to "Heimlich Maneuver"
6320	Airway - Cleared: Suctioning	Active	On / Keep On	Active	No Change	Respiratory: Suction Airway	Name change only
6210	Airway - Confirmation: Esophageal Detector Device/Bulb (EDD)	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-AHA says not effective/reliable
6200	Airway - Confirmation: ETCO2	Active	On / Keep On	Active	No Change	Respiratory: ETCO2 Colorimetric Detection	Name change-this means the single use color change device only
154069	Airway - Extubation	Active	On / Keep On	Active	No Change	Respiratory: Airway Device Removal	Name change only
6170	Airway - Insertion: Combitube	Active	On / Keep On	Active	No Change	Respiratory: SGA Insertion (Combitube / Double Lumen)	Name change-This means "Combitube" or any other variation of a double-lumen Supra-Glottic Airway (SGA).
6240	Airway - Insertion: Intubation (Nasal)	Active	On / Keep On	Active	No Change	Respiratory: Intubation (Nasotracheal)	Name change only
6280	Airway - Insertion: Intubation (Oral)	Active	On / Keep On	Active	No Change	Respiratory: Intubation (Orotracheal)	Name change. NOTE: Do not use this procedure for the airway if you did an RSI. Use the procedure "Intubation (Rapid Sequence)" for the airway procedure/insertion if RSI medications are used.

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
154034	Airway - Insertion: King LT-D	Active	On / Keep On	Active	No Change	Respiratory: SGA Insertion (King / Single Lumen)	Name change-This means "King" or any other variation of a single lumen Supra-Glottic Airway (SGA) with the exception of an LMA.
6220	Airway - Insertion: Laryngeal Mask	Active	On / Keep On	Active	No Change	Respiratory: LMA Insertion	Name change only
6260	Airway - Insertion: Needle Cricothyrotomy	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Respiratory: Cricothyrotomy (Needle)	Not on visible list, Usable by CCT/AMT via XSD
6530	Airway - Insertion: NG/OG Tube	Active	On / Keep On	Active	Modified	GI/GU: Nasogastric Tube Insertion	Had to split NG and OG into separate procedures for V3, Name change
6230	Airway - Insertion: NPA	Active	On / Keep On	Active	No Change	Respiratory: NPA Insertion	Name change only
6270	Airway - Insertion: OPA	Active	On / Keep On	Active	No Change	Respiratory: OPA Insertion	Name change only
6300	Airway - Insertion: Rapid Sequence Intubation	Active	On / Keep On	Active	No Change	Respiratory: Intubation (Rapid Sequence)	Name change. NOTE: This means the whole procedure including the intubation. Do not separately document an Intubation when this procedure is used. If an RSI is done, this procedure must be used. Do not document "Intubation (oral)" and the RSI medications. If you use RSI medications, the airway procedure must be "Intubation (Rapid Sequence)".
154068	Airway - Laryngoscopy (Direct)	Active	On / Shut Off	Inactive	Deprecated	Respiratory: Laryngoscopy (Direct)	Remove-this is implied in intubation and is used minimally
154071	Airway - Laryngoscopy (Video)	Active	On / Shut Off	Inactive	Deprecated	Respiratory: Laryngoscopy (Indirect)	Remove-this is implied in intubation, research by SDQ for services actually using this
154158	Airway - Manual	Inactive	Off / Turn On	Active	Added	Respiratory: Airway Opened	To help define the specific steps of airway management. Old term lumped opened and cleared together.
154067	Airway-BiPAP	Inactive	Off / Turn On	Active	Added	Respiratory: BiPAP	This is now being done for PIFTS, should activate this.
154109	Airway-Bougie-Assisted Intubation	Inactive	Off / Turn On	Active	Added	Respiratory: Intubation (Orotracheal Using Bougie Device)	Adding to capture intubations using a Bougie
6150	Airway-Change Tracheostomy Tube	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154054	Airway-Endotracheal Tube Existing/Monitoring	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
6190	Airway-EOA/EGTA	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154070	Airway-Intubation of Existing Tracheostomy Stoma	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
6310	Airway-Respirator Operation	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
154035	Airway-Sellick Maneuver	Inactive	Off / Turn On	Active	Added	Respiratory: Cricoid Pressure Applied	Adding to better document airway management steps.
154100	Airway-Ventilator Settings Adjustment	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154043	Airway-Ventilator with PEEP	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154101	Airway-Verification	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
6420	ALS - Chest Decompression	Active	On / Keep On	Active	No Change	Respiratory: Chest Decompression	Name change only
154012	ALS - Injections-SQ/IM	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
6560	ALS - Restraints-Pharmacological	Active	On / Shut Off	Inactive	Deprecated	General: Restraint Applied (Chemical)	This can be identified by meds given and protocols used.
154125	Arterial Access - Femoral Line	Inactive	Off / Turn On in XSD Only	Allowed in XSD	Added	Vascular: Arterial Cannulation (Femoral Artery)	Not on visible list, Usable by CCT/AMT via XSD
154099	Arterial Access-Umbilical	Inactive	Off / Turn On in XSD Only	Allowed in XSD	Added	Vascular: Arterial Cannulation (Umbilical Artery)	Not on visible list, Usable by CCT/AMT via XSD
6130	Assessment - 12 Lead ECG	Active	On / Keep On	Active	No Change	Cardiac: 12 Lead ECG Obtained	Name change only
154022	Assessment - Adult	Active	On / Keep On	Active	Modified	Assessment: Patient Assessment	Moving to just "Patient Assessment" Will use age to decide Adult/Pedi
6370	Assessment - Blood Glucose Analysis	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-captured in vitals
154027	Assessment - Orthostatic Vitals	Active	On / Keep On	Active	No Change	Assessment: Orthostatic Vital Signs	Keep-fairly specific procedure
154028	Assessment - Pain Measurement	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-captured in vitals
154023	Assessment - Pediatric	Active	On / Shut Off	Inactive	Deprecated	Not Available	Drop the Adult and Pedi assessment and either just have one assessment or no option in protocols
154029	Assessment - Pulse Oximetry	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-captured in vitals
154030	Assessment - Temperature Measurement	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-captured in vitals
6430	BLS - Childbirth	Active	On / Keep On	Active	No Change	OB:Childbirth	Name change only
6800	BLS - Cold Pack	Active	On / Keep On	Active	No Change	General: Patient Cooling (Cold Pack or Global)	Name change. Global Cooling is for cooling of a hyperthermic patient. For post-resuscitation hypothermia, use "Cardiac: Hypothermia Induction (Post Resuscitation)" .
154025	BLS - Decontamination	Active	On / Keep On	Active	No Change	General: Decontamination	Name change only
6810	BLS - Hot Pack	Active	On / Keep On	Active	No Change	General: Patient Warming (Hot Pack or Global)	Name change only
6820	BLS - Isolation Procedures	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-isolation from what? This is normal part of job
6520	BLS - MAST	Active	On / Shut Off	Inactive	Deprecated	Musculoskeletal: Pressure Trouser Application	Remove, no longer required on trucks and is out of favor

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
6550	BLS - Rescue	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove, Rescue is vague term and adds no value
6570	BLS - Restraints-Physical	Active	On / Keep On	Active	No Change	General: Restraint Applied (Physical)	Name change only
6850	BLS - Stretcher	Active	On / Shut Off	Inactive	Deprecated	Not Available	Can capture by other means
154044	Breathing - Bagged (via BVMask)	Active	On / Keep On	Active	No Change	Respiratory: Bagged Ventilations (via Mask)	Name change only
6140	Breathing - Bagged (via Tube)	Active	On / Keep On	Active	No Change	Respiratory: Bagged Ventilations (via Tube)	Name change only
6180	Breathing - CPAP	Active	On / Keep On	Active	No Change	Respiratory: CPAP	Name change only
6250	Breathing - Distress - Nebulizer Treatment	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
6340	Breathing - Mechanical Ventilator	Active	On / Keep On	Active	No Change	Respiratory: Ventilator Care and Adjustment	Name change only
6290	Breathing - Ventilation - (BVM) Manual Positive Pressure w/ PEEP	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
6720	Cardiac - AICD Deactivation	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove, not in protocol and will not be in V3
154032	Cardiac - Arrest - CPR: Airway-Impedence Threshold Device	Active	On / Shut Off	Inactive	Deprecated	Cardiac: Impedance Threshold Device	Remove-AHA not reliable, out of favor
154001	Cardiac - Arrest - CPR: Automated Device	Active	On / Keep On	Active	No Change	Cardiac: CPR (Mechanical Device)	Name change only
154045	Cardiac - Arrest - CPR: Hold CPR	Active	On / Shut Off	Inactive	Deprecated	Not Available	Not available in version 3. Can be captured by other means.
6460	Cardiac - Arrest - CPR: Provider	Active	On / Keep On	Active	No Change	Cardiac: CPR (Manual)	Name change only
6480	Cardiac - Arrest - Defibrillation: AED-EMS Provider	Active	On / Keep On	Active	No Change	Cardiac: Defibrillation (AED)	Name change, can choose to document "analysis only, No Shock Advised" in procedure comments, or document as ECG monitoring
6470	Cardiac - Arrest - Defibrillation: AED Monitoring/Analysis-No Defib	Active	On / Shut Off	Inactive	Deprecated	Not Available	This is not available in version 3. Can just use "ECG Monitor" or Defib AED and enter in comments that it was analysis with "No Shock Advised".
6740	Cardiac - Arrest - Defibrillation: AED-First Responder	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-captured in Cardiac Arrest Tab
6750	Cardiac - Arrest - Defibrillation: AED-Public Access	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-captured in Cardiac Arrest Tab
6490	Cardiac - Arrest - Defibrillation: Manual	Active	On / Keep On	Active	No Change	Cardiac: Defibrillation (Manual)	Name change only
154047	Cardiac - Arrest - ROSC - Return of Spontaneous Circulation	Active	On / Shut Off	Inactive	Deprecated	Not Available	Can collect by other means

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
154048	Cardiac - Arrest: Discontinue Efforts	Active	On / Shut Off	Inactive	Deprecated	Not Available	Now collecting this in cardiac arrest section with Custom element, will be standard elements on its own in V3
154046	Cardiac - Arrest: External Cooling	Active	On / Keep On	Active	No Change	Cardiac: Hypothermia Induction (Post Resuscitation)	Name change only
6400	Cardiac - Cardioversion (Synchronized)	Active	On / Keep On	Active	No Change	Cardiac: Cardioversion	Name change only
6410	Cardiac - Carotid Massage	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove-AHA says increases risk of stroke
6500	Cardiac - External Cardiac Pacing	Active	On / Keep On	Active	No Change	Cardiac: Pacing (External and Internal)	Name change, combine internal and external pacing
154080	Cardiac - Left Ventricular Assist Device Maintenance	Active	On / Keep On	Active	No Change	Cardiac: LVAD Maintenance	Name change only
154060	Cardiac - STEMI: 12 Lead ECG-Transmitted	Active	On / Keep On	Active	No Change	Cardiac: 12 Lead ECG Transmitted	Will be discontinued July 2014 with V3-different way to capture then.
154085	Cardiac - STEMI: Cath Lab Activation	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove in V3, captured by other means
154031	Cardiac - STEMI: Thrombolytic Screen	Active	On / Shut Off	Inactive	Deprecated	Not Available	No change
6860	Cardiac - Valsalva Maneuver	Active	On / Keep On	Active	No Change	Cardiac: Vagal Maneuver	Name change only
154024	CCT - Cardiac Pacing-Transvenous	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Cardiac: Pacing (External and Internal)	V3 only has one option for pacing. We are converting to just one term now. Not on visible list, Usable by CCT/AMT via XSD until V3
6660	CCT - IV Access-Femoral Line	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Vascular: IV Catheterization (Femoral Vein)	Not on visible list, Usable by CCT/AMT via XSD
154018	CCT - IV Access-Internal Jugular Line	Active	On / Shut Off	Inactive	Deprecated	Not Available	CCT service not doing this, can remove
6690	CCT - IV Access-Maintain Central Line	Active	On / Keep On	Active	No Change	Vascular: Central Line Maintenance	Name change only
154019	CCT - IV Access-Subclavian Line	Active	On / Shut Off	Inactive	Deprecated	Vascular: Subclavian Vein Catheterization	CCT service not doing this, can remove
6700	CCT - IV Access-Swan Ganz Maintain	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Vascular: Swan Ganz (PA Wedge Pressure) Monitoring	Not on visible list, Usable by CCT/AMT via XSD
6610	CCT - Urinary Catheterization	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	GI/GU: Urinary Catheterization	Not on visible list, Usable by CCT/AMT via XSD
6350	CCT: Arterial Access/Blood Draw	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Vascular: Arterial Puncture for Blood Draw	Not on visible list, Usable by CCT/AMT via XSD
6360	CCT: Arterial Line Maintenance	Active	On / Keep On	Active	No Change	Vascular: Arterial Line Maintenance	This refers specifically to maintenance of a-line-meaning keeping a pressure bag on it, but not monitoring

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
6790	CCT: Chest Tube Placement	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Respiratory: Chest Tube Insertion	Not on visible list, Usable by CCT/AMT via XSD
6440	CCT: CNS Catheter-Epidural Maintenance	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	CNS: Epidural Catheter Maintenance	Not on visible list, Usable by CCT/AMT via XSD
6450	CCT: CNS Catheter-Intraventricular	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	CNS: Intracranial Pressure Line Monitoring	Not on visible list, Usable by CCT/AMT via XSD
6450	CCT: CNS Catheter-Intraventricular	Active	On / Shut Off	Inactive	Deprecated	Not Available	Duplicate term going into V3
154026	CCT: Intra-Aortic Balloon Pump	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Cardiac: Intra-Aortic Balloon Pump Maintenance	Not on visible list, Usable by CCT/AMT via XSD
6840	CCT: Pericardiocentesis	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Cardiac: Pericardiocentesis	Not on visible list, Usable by CCT/AMT via XSD
154093	Chest Tube Monitoring	Inactive	Off / Turn On	Active	Added	Respiratory: Chest Tube Maintenance	This is now in Paramedic Scope of Practice
154072	Contact Medical Control	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154073	CPR-AutoPulse Device	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154074	CPR-Mechanical Thumper Type Device	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154075	CPR-Precordial Thump Only	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154076	CPR-Start Compressions only without Ventilation	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154077	CPR-Start Rescue Breathing without Compressions	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154078	Escharotomy	Inactive	Off / Turn On in XSD Only	Allowed in XSD	Added	Soft Tissue: Escharotomy	Not on visible list, Usable by CCT/AMT via XSD
154003	Fetal Monitor	Inactive	Off / Turn On in XSD Only	Allowed in XSD	Added	OB: Fetal Heart Monitor Surveillance	Not on visible list, Usable by CCT/AMT via XSD
154006	Gastric Tube Insertion-Inserted Orally	Inactive	Off / Turn On	Active	Added	GI/GU: Orogastric Tube Insertion	Had to split NG and OG into separate procedures for V3, Name change
6670	IO-Intraosseous Insertion - Adult	Active	On / Keep On	Active	No Change	Vascular: IntraOsseous Cannulation	Name change: NOTE: Converted to just one procedure (not A and P both). Use age to tell difference.
6680	IO-Intraosseous Insertion - Pediatric	Active	On / Shut Off	Inactive	Deprecated	Not Available	V3 does not have a pedi, just an IO procedure. Should just start using only one now
6620	IV Access - Blood Draw	Active	On / Keep On	Active	No Change	Vascular: IV Puncture for Blood Draw	Name change only
154017	IV Access - Discontinue	Active	On / Keep On	Active	No Change	Vascular: IV Catheter Removal	Name change only
6630	IV Access - Existing Catheter/IV Monitoring	Active	On / Keep On	Active	No Change	Vascular: IV Access via Existing Venous Catheter	Name change only
6650	IV Access - External Jugular	Active	On / Keep On	Active	No Change	Vascular: IV Catheterization (External Jugular Vein)	Name change only

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
6640	IV Access - Extremity	Active	On / Keep On	Active	No Change	Vascular: IV Catheterization (Extremity Vein)	Name change only NOTE: IV Start includes a Includes Saline Lock (no longer on list)
154008	IV Access - Saline Lock	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove, no real data value and Saline Lock is part of Extremity Access
154087	IV Access - Umbilical Vein Cannulation	Active	On / Hide but allow in XSD	Allowed in XSD	No Change	Vascular: IV Catheterization (Umbilical Vein)	Not on visible list, Usable by CCT/AMT via XSD
154079	Joint Reduction/Relocation	Inactive	Off / Turn On	Active	Added	Musculoskeletal: Reduction of Dislocated Joint	NEW: Add for extended care protocols
6380	Monitoring - Capnography	Active	On / Keep On	Active	No Change	Respiratory: ETCO2 Digital Capnography	Name change-this means all digital means of ETCO2 monitoring including numeric and waveform
6390	Monitoring - Cardiac Monitor	Active	On / Keep On	Active	No Change	Cardiac: ECG Monitoring	Name change. Also use this for "AED for monitoring only"
6195	Monitoring - ETCO2 Monitoring	Active	On / Shut Off	Inactive	Deprecated	Not Available	Originally said: add the words "Advanced Airway". This is not in V3, only have digital capnography, dropping and just keeping digital and colorimetric options
154081	Monitoring: Pre-existing Patient Devices, Equipment, or Ongoing Medications	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No Change
154135	Mouth to Mouth or Manual Ventilation	Inactive	Off / Turn On	Active	Added	Respiratory: Mouth-to-Mask/Mouth Ventilation	Adding because this is a first responder skill but have not been able to capture before.
6540	None	Active	On / Shut Off	Inactive	Deprecated	Not Available	Not in Version 3
-25	Not Applicable	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
-5	Not Available	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Turn On in XSD Only	Allowed in XSD	NA	Respiratory: Cricothyrotomy (Dilation Device)	Adding with NH Implementation of V3 -Est. July 2014 , Not on visible list, Usable by CCT/AMT via XSD
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Turn On in XSD Only	Allowed in XSD	NA	Respiratory: Transtracheal Jet Insufflation	Adding with NH Implementation of V3 -Est. July 2014 , Not on visible list, Usable by CCT/AMT via XSD
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Turn On in XSD Only	Allowed in XSD	NA	Vascular: Arterial Cannulation	Adding with NH Implementation of V3 -Est. July 2014 , Not on visible list, Usable by CCT/AMT via XSD
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Turn On in XSD Only	Allowed in XSD	NA	Vascular: Arterial Line Monitoring	Adding with NH Implementation of V3 -Est. July 2014 , Not on visible list, Usable by CCT/AMT via XSD

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Keep Off	Inactive	NA	Musculoskeletal: Spinal Immobilization (Cervical)	Add for V3? Not available until then. Keep off because this is implied in full immobilization and the procedure for advanced spinal assessment.
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Keep Off	Inactive	NA	Respiratory: Intubation (Orotracheal Through Laryngeal Mask Airway)	Add for V3? Not available until then. Felt this was very low likelihood of being done and not worth having on list.
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Turn On	NA	NA	Assessment: Patient Assessment	Will use Adult assessment until Implementation of V3 in NH and then switch to this code for V3
None	NOT AVAILABLE UNTIL NH Implements V3 -Est. July 2014	N/A	Off / Turn On	NA	NA	Cardiac: 18 Lead ECG Obtained	Adding with NH Implementation of V3 -Est. July 2014
-10	Not Known	Inactive	Off / Keep Off	Inactive	No Change	Not Known	No change
-20	Not Recorded	Active	On / Keep On	Active	No Change	Not Recorded	Needed for Importing in V2
-15	Not Reporting	Inactive	Off / Keep Off	Inactive	No Change	Not Reporting	No change
6830	Other	Active	On / Shut Off	Inactive	Deprecated	Not Available	Not in Version 3
154036	Patient Loaded	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154037	Patient Loaded-Helicopter Hot-Load	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154038	Patient Off-Loaded	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154039	Patient Off-Loaded Helicopter Hot Off-Load	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154083	Specialty Center Activation-Cardiac Arrest	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154086	Specialty Center Activation-Stroke	Inactive	Off / Keep Off	Inactive	No Change	Not Available	Will capture in V3 dataset elsewhere
154124	Thoracentesis	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
6510	Trauma - Extrication	Active	On / Keep On	Active	No Change	Movement: Extrication of Patient	Name change only
6580	Trauma - Full Spinal Immobilization (C-Collar, Long Backboard)	Active	On / Keep On	Active	No Change	Musculoskeletal: Spinal Motion Restriction	This term now means all spinal motion restriction per the new protocol effective January 2014. This includes the use of a c-collar for SMR. If a C-collar is used just for movement stabilization (such as for a non-traumatic cardiac arrest) then use C-Collar for stabilization and Movement via Long Device, and not this option. NOTE: After January, 2014, this will be relabeled from "Spinal Immobilization" to "Spinal Motion Restriction" to reflect new NH protocols

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
154131	Trauma - Full Spinal Immobilization (C-Collar, Vacuum Spine Board)	Active	On / Shut Off	Active til 5/1	Deprecated	Musculoskeletal: Spinal Immobilization	Remove, study no longer being done and generic Spinal Immobilization/Spinal Motion Restriction will be used. Code will be temporarily use until May 1 for documenting the old style spinal immobilization as compared to the new Spinal Motion Restriction, which will use the current NEMSIS code for Spinal Immobilization going forward.
154020	Trauma - Spinal Assessment - Deficits Noted	Active	On / Shut Off	Inactive	Deprecated	Not Available	Not an option for just spinal assessment in version 3 should remove from list
154021	Trauma - Spinal Assessment - Spinal Immobilization Withheld Per Assessment Criteria	Active	On / Keep On	Active	No Change	Musculoskeletal: Spinal Precautions Withheld Per Assessment Criteria	Name change only
6770	Trauma - Spinal Immobilization - C-Collar	Active	On / Keep On	Active	No Change	Movement: Cervical Collar Applied for Stabilization	Name Change. NOTE: This is for using C-Collar to move someone (e.g. cardiac arrest). For immobilization, use "Spinal Immobilization" or "Spinal Motion Restriction".

TEMSIS Procedure List Changes

Notes About Keeping and 3rd Party Vendors

V2 / NH Export Code	Old NH Procedure Name	Current Status	Current Status / New Status	Status as of 3/3/2014	Change Status	New NH Procedure Name	Notes about keeping for NH
154089	Trauma - Wound Care-Taser Barb Removal	Active	On / Shut Off	Inactive	Deprecated	Not Available	Initially said "Remove" This is a protocol, but the protocol emphasizes that PD do this. If they call us, we probably shouldn't take it out if they couldn't, still remove?
154082	Trauma-Specialty Center Activation-Adult Trauma	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove, captured elsewhere in runform
154084	Trauma-Specialty Center Activation-Pediatric Trauma	Active	On / Shut Off	Inactive	Deprecated	Not Available	Remove, captured elsewhere in runform
154111	Umbilical Artery Catheter	Inactive	Off / Keep Off	Inactive	No Change	Not Available	No change
154112	Venous Access – Scalp	N/A	Off / Keep Off	Inactive	No Change	Vascular: Scalp Vein Catheterization	Add for V3? Not available until then. This is just another location
154105	Wound Care - Eye Irrigation	Inactive	Off / Turn On	Active	Added	General: Eye Irrigation	To support NH protocols for this specific procedure
154208	Wound Care-Occlusive Dressing	Inactive	Off / Turn On	Active	Added	Soft Tissue: Occlusive Dressing Application	Adding because this is a long-standing EMS skill that did not have a means to capture before
