EMS and Public Safety Security Measures

EMS Bureau Chief Sue Prentiss reminds providers that recent thefts of emergency medical and fire equipment emphasize the need to implement and maintain basic security measures, including the following:

- Be aware of surroundings and report suspicious activity.
- Maintain building and vehicle security.
- Frequently check equipment and supplies.
- Obtain security/identification items from resigned/terminated personnel.
- Provide official insignia and uniforms to approved personnel and require return of all issued equipment/clothing on resignation/termination of personnel.

In addition, the National Association of EMT's (NAEMT) also recommends the following:

- Provide periodic training/updates on local security issues.
- Emphasize operational security and situational awareness.
- Obtain necessary training and personal equipment to prepare for terrorism acts.
- Track accountability of all agency vehicles.
- Implement safeguards for vehicles during calls.
- Routinely and randomly audit access of keys and logs.
- Ensure security of off-site vehicles assigned to personnel or located at repair facilities.
- Remove identifying markings and disable emergency warning devices on decommissioned vehicles.
- Safeguard storage of uniforms and accessories.
- Implement counterfeit-resistant identification credentials and include photo ID.
- Develop protocol with agency's uniform vendor for authorizing purchases.
