

New Hampshire Fire Standards and Training & Emergency Medical Services  
in conjunction with NH Homeland Security and Emergency Management, announces...

## L340: Radiological Emergency Preparedness (REP) Planning

CREF #: 10-12-EMI-105

This 5-day course focuses on nuclear power plant off-site emergency preparedness. It addresses federal regulations policies, development and testing of plans, and public perceptions. Participants will come away with a sound understanding of basic planning assumptions and policy issues.

**TARGET AUDIENCE:** Local, state, and federal emergency response managers as well as utility personnel involved in off-site nuclear power plant emergency planning.
