The G 775 course describes the role, design, and functions of Emergency Operations Centers and their relationships as components of a multi-agency coordination system. At the end of the course, students should be able to:

- Relate EOC operations to National Incident Management System (NIMS) requirements.
- Describe the role that EOCs play in overall multi-agency coordination.
- Describe the relationship between the EOC and the on-scene ICS structure.
- Identify staffing, information, systems, and equipment needs at the EOC.
- Determine whether participants' EOC organizations are conducive to effective coordination.
- Identify potential alternate locations suitable for EOC operations should the primary EOC facility become damaged or inoperable.
- Create a test, training, and exercise plan for critical EOC operations.
- Develop a strategy and schedule for reviewing EOC resource requirements and technology needs.

TARGET AUDIENCE: All Federal, state, and local emergency managers as well as private industry personnel responsible for coordination activities during a disaster and Voluntary Organizations Active in Disaster (VOAD) personnel.

WHEN: Thursday and Friday, August 20 & 21, 2009
