NH DHHS COVID-19 Update – January 21, 2021

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, January 21, 2021, DHHS announced 925 new positive test results for COVID-19, for a current PCR test positivity rate of 2.9%. Today’s results include 592 people who tested positive by PCR test and 333 who tested positive by antigen test. There are now 6,204 current COVID-19 cases diagnosed in New Hampshire. Of the results reported today:

- 1/15: 17 new cases today, for an updated total of 660 cases
- 1/17: 29 new cases today, for an updated total of 496 cases
- 1/18: 57 new cases today, for an updated total of 535 cases
- 1/19: 395 new cases today, for an updated total of 683 cases
- 1/20: 427 new cases

Test results for previous days are still being processed and the total number of new positives for those days are not yet complete. Updated case counts for prior days will be reflected on the COVID-19 interactive dashboard.

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are one hundred and nineteen individuals under the age of 18 and the rest are adults with 51% being female and 49% being male. The new cases reside in Rockingham (226), Hillsborough County other than Manchester and Nashua (150), Strafford (74), Merrimack (67), Grafton (63), Cheshire (35), Coos (35), Belknap (30), Carroll (24), and Sullivan (13) counties, and in the cities of Manchester (92) and Nashua (82). The county of residence is being determined for thirty-four new cases.

Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases are either associated with an outbreak setting or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has also announced twelve additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 2 male residents of Belknap County, 60 years of age and older
- 1 female resident of Cheshire County, 60 years of age and older
- 1 male resident of Hillsborough County, 60 years of age and older
- 2 female residents of Hillsborough County, 60 years of age and older
- 4 male residents of Rockingham County, 60 years of age and older
- 1 male resident of Strafford County, 60 years of age and older
- 1 male resident of Sullivan County, 60 years of age and older
There are currently 240 individuals hospitalized with COVID-19. In New Hampshire since the start of the pandemic, there have been a total of 60,294 cases of COVID-19 diagnosed.

</table>

* Includes out-of-state public health laboratories, out-of-state hospital laboratories, and other commercial laboratories not already listed in the table.

Note: Patients who had both antibody and polymerase chain reaction (PCR) tests are accounted for in both tables.

** Includes tests conducted at the UNH laboratory and their contracted lab Veritas.
