NH DHHS COVID-19 Update – April 3, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

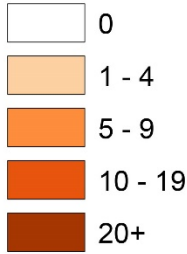

On Friday, April 3, 2020, DHHS announced 61 new positive test results for COVID-19. There have now been 540 cases of COVID-19 diagnosed in New Hampshire. The new cases are 40 adult females and 21 adult males. The new cases reside in Rockingham (20), Hillsborough County other than Manchester and Nashua (12), Belknap (3), Merrimack (3), Carroll (1), Cheshire (1), Coos (1), and Strafford (1) counties, and in the cities of Manchester (11) and Nashua (8). This marks the first confirmed case in Coos County. Seven of the new cases were hospitalized for their illness; thus far, 80 (15%) of the 540 positive cases have been hospitalized. Twenty-one of the new cases have no identified risk factors. Community-based transmission continues to increase in the State and has been identified in all counties with cases. Most of the remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has also announced two additional deaths related to COVID-19. These people were one male and one female, both residents of Hillsborough County who were over 60 years old. We offer our sympathies to the family and friends.

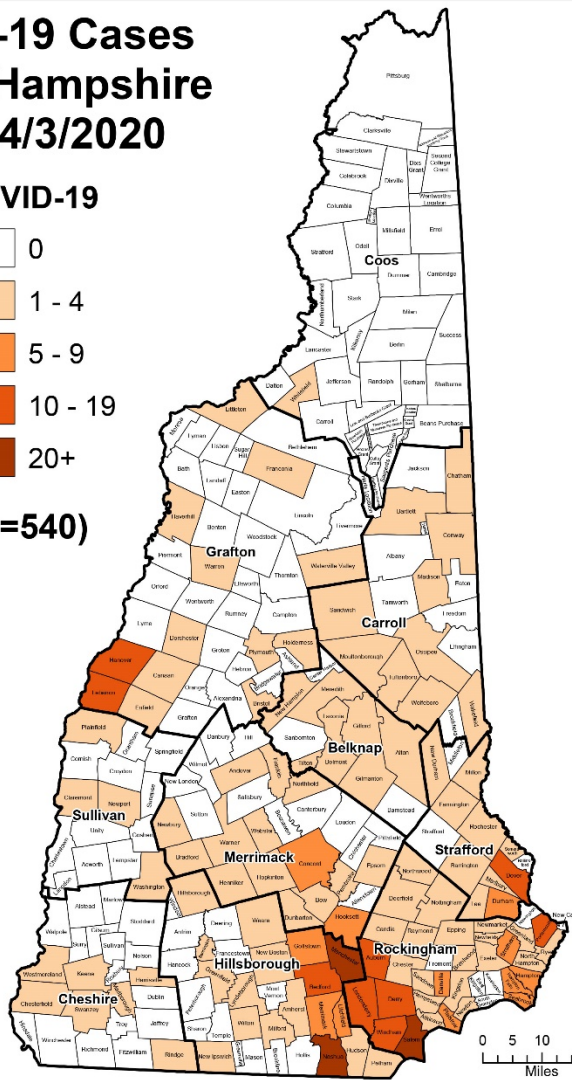

Current Situation in New Hampshire

COVID-19 Cases in New Hampshire as of 4/3/2020

COVID-19

(N=540)

County	Cases
Belknap	14
