## NH DHHS COVID-19 Update – May 29, 2020

**Concord, NH** – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Friday, May 29, 2020, DHHS announced 107 new positive test results for COVID-19. There have now been 4,492 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are three individuals under the age of 18 and the rest are adults with 74% being female and 26% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (16), Rockingham (7), Strafford (4), Sullivan (2), Cheshire (2), Merrimack (2), and Belknap (1) counties, and in the cities of Nashua (40) and Manchester (32). The county of residence is being determined for one new case.

Two new hospitalized cases were identified for a total of 440 (10%) of 4,492 cases. Eleven of the new cases have no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have either had travel to domestic or international locations or have had close contact with a person with a confirmed COVID-19 diagnosis.

DHHS has announced six additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 4 male residents of Hillsborough County, 60 years of age and older
- 2 female residents of Hillsborough County, 60 years of age and older

The DHHS COVID-19 Dashboard launched earlier today on [NH.gov/COVID19](https://www.nh.gov/COVID19). Some of the items normally included in the daily update, such as the case maps, can be accessed on the Dashboard.

### Current Situation in New Hampshire

#### New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated May 29, 2020, 9:00 AM)

NH Persons with COVID-19 <sub>1</sub>	4,492
Recovered	2,802 (62%)
Deaths Attributed to COVID-19	238 (5%)
Total Current COVID-19 Cases	1,452
Persons Who Have Been Hospitalized for COVID-19	440 (10%)
Current Hospitalizations	105
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) <sub>2</sub>	68,960

Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests <sup>2</sup>	11,169
Persons with Specimens Submitted to NH PHL	23,953
Persons with Test Pending at NH PHL <sup>3</sup>	960
Persons Being Monitored in NH (approximate point in time)	3,900

<sup>1</sup>Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

<sup>2</sup>Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

<sup>3</sup>Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.
