NH DHHS COVID-19 Update – June 12, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Friday, June 12, 2020, DHHS announced 46 new positive test results for COVID-19. There have now been 5,251 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there is one individual under the age of 18 and the rest are adults with 63% being female and 37% being male. The new cases reside in Rockingham (8), Merrimack (4), Hillsborough County other than Manchester and Nashua (4), and Belknap (1) Counties and in the cities of Manchester (22) and Nashua (6). The county of residence is being determined for one new case.

One new hospitalized case was identified for a total of 503 (10%) of 5,251 cases. This represents a decrease of one hospitalization overall from prior reports due to previously-reported hospitalized cases being removed from New Hampshire case counts after determining they were not New Hampshire residents. Nine of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has also announced 7 additional deaths related to COVID-19. We offer our sympathies to the family and friends.

- 6 female residents of Hillsborough County, 60 years of age and older
- 1 female resident of Belknap County, 60 years of age and older

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated June 12, 2020, 9:00 AM)

NH Persons with COVID-19 ₁	5,251
Recovered	3,843 (73%)
Deaths Attributed to COVID-19	315 (6%)
Total Current COVID-19 Cases	1,093
Persons Who Have Been Hospitalized for COVID-19	503 (10%)
Current Hospitalizations	76
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) ₂	93,956

Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests ₂	15,236
Persons with Specimens Submitted to NH PHL	30,516
Persons with Test Pending at NH PHL ₃	1,268
Persons Being Monitored in NH (approximate point in time)	3,825

¹Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

²Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

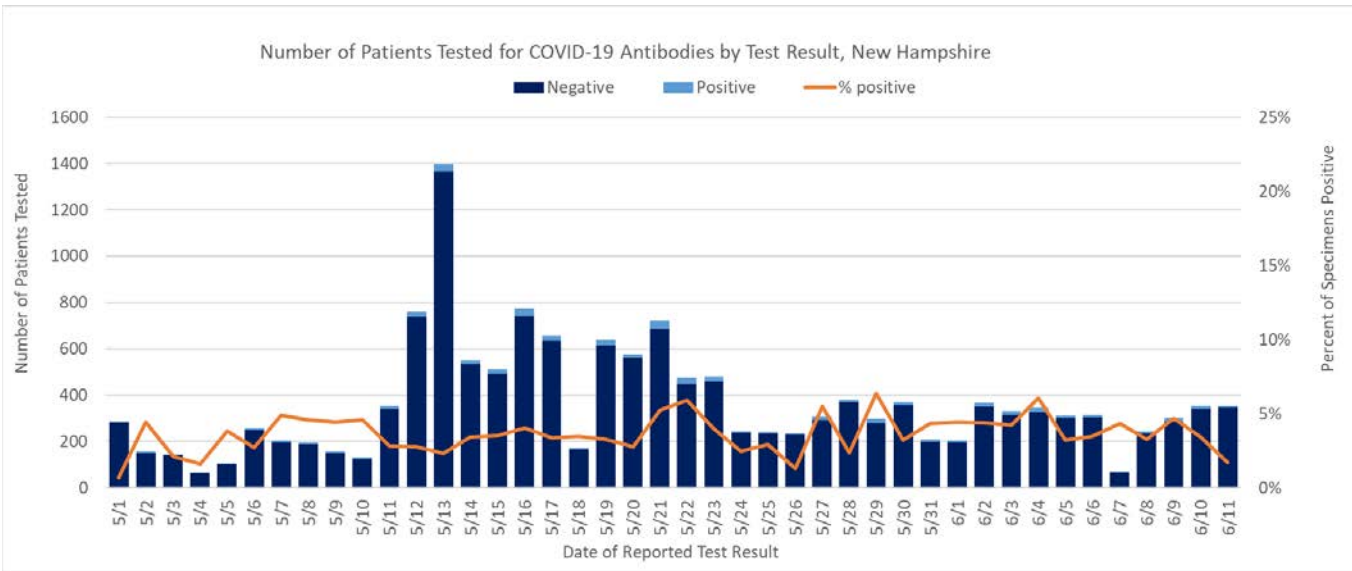

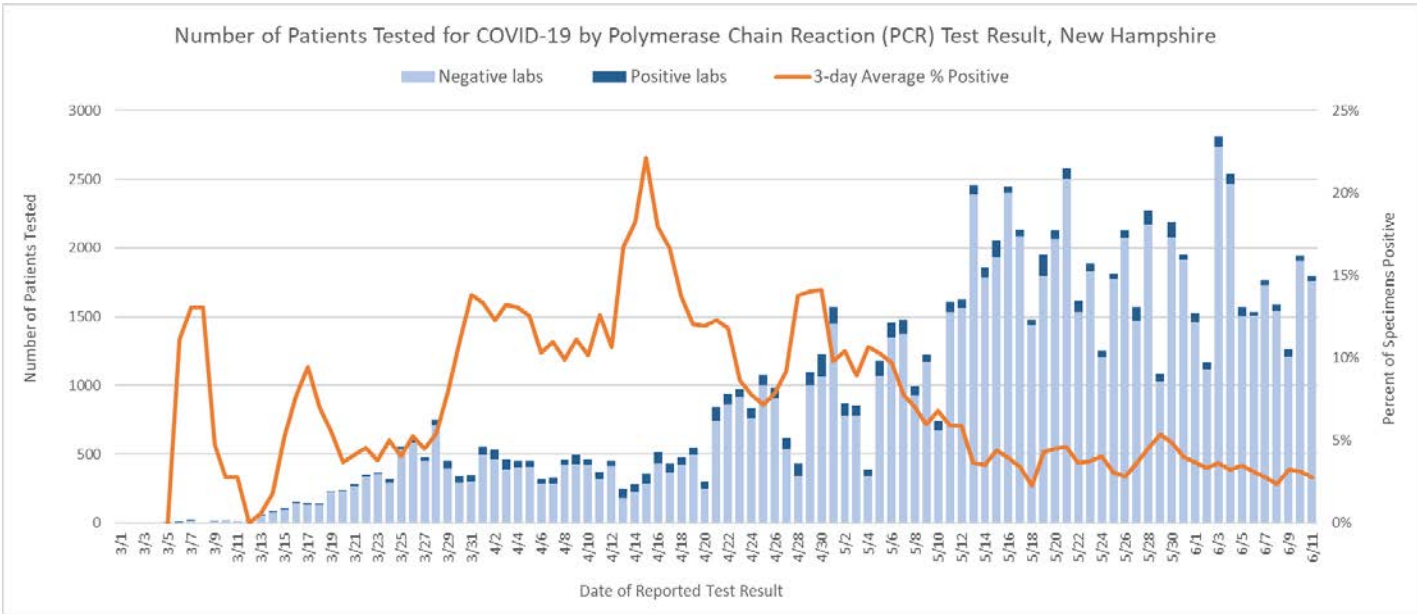

³Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.
