NH DHHS COVID-19 Update – July 9, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, July 9, 2020, DHHS announced 21 new positive test results for COVID-19. There have now been 5,973 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, all are adults with 57% being female and 43% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (5), Carroll (1), Cheshire (1), Merrimack (1), and Strafford (1) counties, and in the cities of Manchester (8) and Nashua (4).

Three new hospitalized cases were identified for a total of 581 (10%) of 5,973 cases. Community-based transmission continues to occur in the State and has been identified in all counties. Of the new cases, none of them were considered to have no identified risk. Most of the cases have had close contact with a person with a confirmed COVID-19 diagnosis, recently traveled, or are associated with an outbreak setting.

DHHS has also announced one new death related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Hillsborough County, 60 years of age and older

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated July 9, 2020, 9:00 AM)

NH Persons with COVID-19 ₁	5,973
Recovered	4,831 (81%)
Deaths Attributed to COVID-19	387 (6%)
Total Current COVID-19 Cases	755
Persons Who Have Been Hospitalized for COVID-19	581 (10%)
Current Hospitalizations	24
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) ₂	131,051
Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests ₂	20,931
Persons with Specimens Submitted to NH PHL	33,243

Persons Being Monitored in NH (approximate point in time) 3,425

1Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

2Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

3Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.

Number of Tests Conducted by Date of Report to NH DHHS
