## **NH DHHS COVID-19 Update – July 16, 2020**

**Concord, NH** – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, July 16, 2020, DHHS announced 27 new positive test results for COVID-19. There have now been 6,139 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are two individuals under the age of 18 and the rest are adults with 65% being female and 35% being male. The new cases reside Rockingham (7), Hillsborough County other than Manchester and Nashua (4), Belknap (2), Cheshire (1), Grafton (1), Merrimack (1), and Strafford (1) counties, and in the city of Manchester (10).

No new hospitalized cases were identified for a total of 668 (11%) of 6,139 cases. Five of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have either had close contact with a person with a confirmed COVID-19 diagnosis or have recently traveled.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Merrimack County, 60 years of age and older
