NH DHHS COVID-19 Update – August 6, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Thursday, August 6, 2020, DHHS announced 25 new positive test results for COVID-19. There have now been 6,742 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there is one individual under the age of 18 and the rest are adults with 68% being female and 32% being male. The new cases reside in Strafford (8), Rockingham (5), Carroll (2), Cheshire (1), and Merrimack (1) counties, and in the cities of Manchester (4) and Nashua (3). The county of residence is being determined for one new case.

One new hospitalized case was identified for a total of 699 (10%) of 6,742 cases. Five of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Most of the remaining cases have either had close contact with a person with a confirmed COVID-19 diagnosis or have recently traveled.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Rockingham County, 60 years of age and older

Current Situation in New Hampshire

New Hampshire 2019 Novel Coronavirus (COVID-19) Summary Report (data updated August 6, 2020, 9:00 AM)

NH Persons with COVID-19 ₁	6,742
Recovered	5,941 (88%)
Deaths Attributed to COVID-19	419 (6%)
Total Current COVID-19 Cases	382
Persons Who Have Been Hospitalized for COVID-19	699 (10%)
Current Hospitalizations	21
Total Persons Tested at Selected Laboratories, Polymerase Chain Reaction (PCR) ₂	168,465
Total Persons Tested at Selected Laboratories, Antibody Laboratory Tests ₂	27,611
Persons with Specimens Submitted to NH PHL	37,804

Persons Being Monitored in NH (approximate point in time) 2,950

¹Includes specimens positive at any laboratory and those confirmed by CDC confirmatory testing.

²Includes specimens tested at the NH Public Health Laboratories (PHL), LabCorp, Quest, Dartmouth-Hitchcock Medical Center, and those sent to CDC prior to NH PHL testing capacity.

³Includes specimens received and awaiting testing at NH PHL. Does not include tests pending at commercial laboratories.
