NH DHHS COVID-19 Update – September 2, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Wednesday, September 2, 2020, DHHS announced 15 new positive test results for COVID-19. There have now been 7,309 cases of COVID-19 diagnosed in New Hampshire. Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are six individuals under the age of 18 and the rest are adults with 60% being female and 40% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (5), Rockingham (5), Cheshire (2), and Strafford (1) counties, and in the city of Manchester (1). The county of residence is being determined for one new case.

No new hospitalized cases were identified for a total of 715 (10%) of 7,309 cases. Two of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or have recently traveled.

Please note that today's update only includes data on confirmed positive tests. Negative testing data reported by testing laboratories is unavailable today and will be included in tomorrow's update.
