NH DHHS COVID-19 Update – October 9, 2020

Concord, NH – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Friday, October 9, 2020, DHHS announced 97 new positive test results for COVID-19, for a daily PCR test positivity rate of 0.9%. Today's results include 77 people who tested positive by PCR test and 20 who tested positive by antigen test. There are now 585 current COVID-19 cases diagnosed in New Hampshire.

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are 27 individuals under the age of 18 and the rest are adults with 45% being female and 55% being male. The new cases reside in Hillsborough County other than Manchester and Nashua (29), Rockingham (17), Merrimack (14), Belknap (4), Cheshire (4), Grafton (3), Carroll (2), and Sullivan (1) counties, and in the cities of Nashua (11) and Manchester (7). The county of residence is being determined for five new cases.

One new hospitalized case was identified. There are currently 13 individuals hospitalized with COVID-19. Nine of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis or are associated with an outbreak setting.

DHHS has announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 female resident of Hillsborough County, 60 years of age and older

In New Hampshire since the start of the pandemic, there have been a total of 8,970 cases of COVID-19 diagnosed with 748 (8%) of those having been hospitalized.
