## **NH DHHS COVID-19 Update – October 21, 2020**

**Concord, NH** – The New Hampshire Department of Health and Human Services (DHHS) has issued the following update on the new coronavirus, COVID-19.

On Wednesday, October 21, 2020, DHHS announced 92 new positive test results for COVID-19, for a daily PCR test positivity rate of 1.2%. Today's results include 52 people who tested positive by PCR test and 40 who tested positive by antigen test. There are now 798 current COVID-19 cases diagnosed in New Hampshire.

Several cases are still under investigation. Additional information from ongoing investigations will be incorporated into future COVID-19 updates. Of those with complete information, there are eight individuals under the age of 18 and the rest are adults with 51% being female and 49% being male. The new cases reside in Rockingham (22), Merrimack (19), Hillsborough County other than Manchester and Nashua (15), Belknap (7), Strafford (7), Grafton (2), Sullivan (2), and Carroll (1) counties, and in the cities of Manchester (10) and Nashua (2). The county of residence is being determined for five new cases.

No new hospitalized cases were reported. There are currently 14 individuals hospitalized with COVID-19. One of the new cases had no identified risk factors. Community-based transmission continues to occur in the State and has been identified in all counties. Of those with complete risk information, most of the cases have either had close contact with a person with a confirmed COVID-19 diagnosis, are associated with an outbreak setting, or have recently traveled.

DHHS has also announced one additional death related to COVID-19. We offer our sympathies to the family and friends.

- 1 male resident of Hillsborough County, 60 years of age and older

In New Hampshire since the start of the pandemic, there have been a total of 9,917 cases of COVID-19 diagnosed with 763 (8%) of those having been hospitalized.
