MONROE BRIDGE TO CLOSE FOR FINAL REHABILITATION WORK
McINDOES ROAD BRIDGE OVER CONNECTICUT RIVER TO BARNET, VT

The New Hampshire Department of Transportation announces the bridge connecting Monroe, New Hampshire and Barnet, Vermont via McIndoes Road (NH) and Monroe Road (VT) over the Connecticut River will be closed to traffic on Monday, May 14, 2007 for final rehabilitation work. This work involves competitor the painting of the bridge and new sidewalk timbers.

This 77-year old steel truss bridge was reopened to traffic for the winter months on December 8. It’s scheduled to be closed for up to eight weeks to finish the rehabilitation work.

Michael Hansen Construction of New London, New Hampshire is the general contractor for the $1.98 million project.
