PAVEMENT RECYCLING WORK ON NH ROUTE 12 IN NORTH WALPOLE
ONE-WAY ALTERNATING TRAFFIC REQUIRED DURING WORK HOURS

The New Hampshire Department of Transportation announces pavement-recycling work on NH 12 (Church Street) is about to get underway in the Town of Walpole. This project is approximately seven-tenths of a mile in length and will begin the week of June 20, 2005. The project includes full depth pavement recycling and adjustment of underground utilities from the intersection of the arch bridge north to Main Street.

One-way alternating traffic will be necessary during daytime work hours in order to perform the work. Flaggers will assist motorists through the work zone. Some delays can be expected.

The estimated completion date is August 26, 2005.
