SIGNALIZED ONE-WAY TRAFFIC AT WOLFEBORO BRIDGE
NH 28/109 BRIDGE OVER THE SMITH RIVER

The New Hampshire Department of Transportation announces the rehabilitation and widening of the NH Route 28/109 bridge over the Smith River in Wolfeboro will require alternating one-way traffic controlled by a traffic signal, beginning Wednesday, March 1.

The signalized alternating one-way traffic at the bridge will be in effect for approximately two months. The single lane will be 11 and a half feet wide.

Audley Construction, Inc. of Bow, New Hampshire is the general contractor for the \$2.25 million project.
