BOX CULVERT REPAIRS ON NH ROUTE 12 IN TROY  
SINGLE LANE TRAFFIC FOR THREE MONTHS

The New Hampshire Department of Transportation announces repairs are scheduled to begin Wednesday, February 14, 2007 on a box culvert on NH Route 12 located one-half mile south of the fire station and Quarry Road in Troy.

This work will involve widening and deck and wing repairs. It will require a single 12-foot wide lane for approximately three months. Alternating traffic will be controlled by temporary signals.
