FRANCONIA NOTCH PARKWAY (I-93) BRIDGE REPAIRS
NORTHBOUND BRIDGE OVER TRAMWAY ACCESS ROAD

The New Hampshire Department of Transportation announces bridge repairs are scheduled to begin Wednesday, April 4, 2007 on the northbound Franconia Notch Parkway (I-93) Bridge over the Tramway Access Road in Franconia.

This deck and joint repair work will require the closure of the bridge to traffic for at least two weeks. Northbound traffic on the Franconia Notch Parkway will be diverted around the bridge by taking the off-ramp to the Tramway Access Road and then getting on the Parkway on-ramp.

Warning signs, concrete barriers and temporary signals will be used to assist motorist through the detour.
