BRIDGE WORK IN OSSIPEE-WOLFEBORO WILL CLOSE BROWN RIDGE ROAD
EIGHT WEEK PROJECT REPLACING STONE CULVERT WITH BOX CULVERT

The New Hampshire Department of Transportation announces the planned replacement of a stone culvert crossing Youngs Brook on Brown Ridge Road at the Ossipee-Wolfeboro town line will require an eight week road closure and detour.

This project, which involves the removal of a stone culvert and replacing it with a pre-cast concrete box culvert, is scheduled to begin on Monday, April 13 and extend until Monday, June 8, 2009. A signed detour will direct traffic via NH Route 16 to NH Route 171 (Granite Road).

Motorists are urged to use alternative routes if possible. In case of inclement weather, work on this project will be postponed until the following workday.
