Is Aircraft Flyable?    Yes     No     (If not, you may request an unflyable waiver.)

*Unlike your motor vehicles or boat, New Hampshire Statute requires you to register aircraft even if it is not flown. You must notify the Bureau of Aeronautics if your aircraft is unflyable and you are requesting a waiver of registration and Aircraft Operating Fee (if applicable). Valid reasons for requesting a waiver include when a major component is missing, damaged, or removed for repair; aircraft is undergoing accident or incident repairs, or aircraft is undergoing complete rebuild or modification. There is no fee for an unflyable waiver.*

**\*\*Please complete and return to the NHDOT Bureau of Aeronautics at the address listed below. Please do not submit a payment with it at this time. Upon receipt of this form by the Bureau of Aeronautics, your registration fees will be computed and you will be contacted in writing as to the amount owed to register your aircraft.\*\***
