CARES Act Airport Grants New Hampshire Airports

On Mar. 27, 2020, Public Law 116-136, Coronavirus Aid, Relief, and Economic Security Act (CARES Act), was signed into law (<https://www.congress.gov/116/bills/hr748/BILLS-116hr748enr.pdf>). It grants to NPIAS airports funding for:

- Group 1: the non-federal matching share of FY 2020 grant amounts that were previously programmed
 - Groups 2-4: funds based on formulas provided in the law for operations and maintenance of airports
- The purpose of these grants is to help airports cover the expenses they are incurring as a result of the effects of the coronavirus pandemic.

The following chart identifies these CARES Act grant amounts by New Hampshire airport. Group 1 grants have not been issued so amounts show in the chart below are estimates only. Groups 2-4 grants have all been issued so these amounts are actuals.

New Hampshire Department of Transportation Aeronautics' Program Update

June 19, 2020 Quarterly Report
Concord, New Hampshire

FUNDING PROGRAMS

AIRPORT IMPROVEMENT PROGRAM FUNDING (AIP and ABGP)

FAA authorization runs out on Sep. 30, 2023. Public Law 116-94, Further Consolidated Appropriations Act of 2020, includes \$3.35B AIP funding plus \$400M in Supplemental Funding appropriations to eligible airports. The FAA recently announced FY 2020 Supplemental Funding appropriations (EEN to receive \$1.6±M).

CARES ACT GROUPS 1-4

On Mar. 27, 2020, Public Law 116-136, Coronavirus Aid, Relief, and Economic Security Act (CARES Act), was signed into law. It gives NPIAS airports various sums of money for operations and maintenance of airports (Groups 2-4) and to cover the non-federal share of FY 2020 grant offers (i.e., 100% FAA share on these grants). NH airports will or have received \$15,224,474 in Groups 2-4 funds; NH airports anticipate receiving approximately \$1,636,545 in Group 1 funds.

NEW HAMPSHIRE AIRPORT IMPROVEMENT AND MAINTENANCE PROGRAM (NH AIM Program)

The Bureau received nearly \$1.4M of project requests through pre-applications from NH's public-use airports were submitted through September 6, 2019. Approximately \$225K/year has been appropriated for this program as the NHDOT's 80% project share. In 2020, two projects have been identified for funding. Eligible projects in the NH AIM Program could include obstruction removal, equipment purchases, runway maintenance, and planning studies as well as other possibilities. Aviation fuel tax collections may be reduced due to the pandemic likely impacting grant availability.

AIRCRAFT OPERATING FEE (AOF) RETURNS

RSA 422:36ll requires the state to return \$250,000 of the AOF to public-use airports for use at those airports for aeronautical purposes. Airport sponsors must report tail numbers of all their based aircraft to NHDOT/Bureau of Aeronautics on a quarterly basis to maximize these AOF Returns. All FY 2020 AOF have been distributed.

GRANTS TO AIRPORT SPONSORS

There continues to be no funding available in SFY 2020 for the 100% grants to airport sponsors program. Twenty-four airports qualified for this program when funding was available.

AIRPORT PROPERTY TAX REIMBURSEMENT PROGRAM

Property taxes paid on the public-use portion of privately owned, publicly used airports qualified for an exemption under RSA 72:38 (eight airports are eligible). This program historically covered less than 100% of the eligible costs but continues to be unfunded in SFY 2020.

PENDING NH LEGISLATION

Due to the coronavirus pandemic, many of the pending bills weren't able to make it through their review processes and deadlines were missed. HB 1182, however, received several amendments including allowing fees charged to Transportation Network Companies and added definitions and registration requirements for roadable aircraft, HB 1182, with amendments, received an Ought-to Pass vote from the Senate Transportation Committee and moves on to the full Senate.

New Business

Alton Bay – not open yet; not deep enough, and not good enough quality; opening date is up in the air; 1/22 opening date last year (20 days) 740 landings. Most lakes are now open, bays not yet. Looking to get additional people to work the airport this year – no landing to the south or crosswinds (i.e. only to the north). Working the safety issues. Will and Carol met with FAA in prep for annual webinar re: Alton Bay.

NPRM – Remote Identification of UAS

Summary was provided in the Board's packet – the proposed rule is not all encompassing; addresses production and design requirements, and certificate of compliance; homebuilt UAS are not included (defined as the UAS is greater than 50% fabrication by the builder), but kit built, etc. will require certificate.

Provides for automated RID collection, processing & storage of RID messages – radio signal like ADS-B but for UAS; collection not FAA funded, rather it is by subscription; UAS broadcasts location and ID info – different levels of UAS capabilities

Radio frequencies to be used are not yet known.

Doesn't address the tracking of drones that don't transmit RID signals.
